BUREAU OF ANALYSED SAMPLES LTD

CATALOGUE NO. 926b SEPTEMBER 2024

4004 Certificate GB94/3993

PRODUCT INDEX

INTRODUCTION

For over eighty years Bureau of Analysed Samples Ltd (BAS) has been preparing British Chemical Samples, now known as BCS Certified Reference Materials (CRMs) for the metallurgical industries. Full particulars of all BAS-produced materials are given in a separate catalogue.

When the UK joined the EEC in 1973 BAS was invited to co-operate with BAM in Germany and IRSID in France in the production of CRMs for the iron and steel industry on a European basis and this European Producers Group has been augmented by the inclusion of the Nordic CRM Working Group: this work was under the auspices of the European Committee for Iron and Steel Standardization (ECISS). These EURONORM Certified Reference Materials (ECRMs) are normally analysed by approximately twenty laboratories from countries in the European Economic Area (EEA) and are issued with a Certificate of Analysis approved by the participating laboratories and the producing organizations. These ECRMs are indicated by an asterisk in this list. Although BAS is no longer a part of the ECRM Producers Group, all ECRMs (prepared by BAM, IRSID (now ARCELORMITTAL), CTIF and Jernkontoret) are available from BAS. Data regarding the BAS-produced ECRMs are given in the BAS Certified Reference Materials Catalogue, whilst the data re BAM, ARCELORMITTAL, CTIF and Jernkontoret -produced ECRMs are given in this catalogue.

Further details of ECRMs, including their method of preparation, certification and supply and the use of the statistical information given on ECRM certificates are given in Technical Reports CEN/TR 10317:2014 and CEN/TR 10350:2013 which are available in the UK from the BSI, 389 Chiswick High Road, London W4 4AL.

In September 1992, the BNF – Fulmer organisation was closed down. BAS purchased their Reference Materials business, including the considerable stock of BNF samples, and is continuing the business as before. Thus, BAS is now the primary source of BNF copper, nickel and lead base Reference Materials. Replacement samples are being produced by BAS in order to maintain continuity of supply of these samples: (see the latest BAS Catalogue for details of such samples already produced by BAS).

In order to assist our customers to obtain complementary Reference Materials from other reputable producers, BAS is now holding a stock, and many of the Reference Materials detailed in this catalogue are immediately available, with delivery of non-stock items usually achieved within two to three weeks.

In this catalogue Reference Materials which are supplied with a Certificate of Analysis giving the information specified in ISO Guide 31 "Contents of Certificates of Reference Materials" are referred to as "Certified Reference Materials" and the remainder as "Reference Materials", in accordance with the definitions given in ISO Guide 30 "Terms and definitions used in connection with Reference Materials". (ISO Guides are available from Case Postale 56, CH-1211 Geneva 20, Switzerland).

The Certificate accompanying each CRM, or Analysis Report/Information Sheet accompanying each RM, should be consulted to obtain the accurate analysis of each sample, since in some cases the figures shown in this catalogue may differ slightly from those given on the Certificate or Analysis Report/Information Sheet. Please note that the disc/block sizes stated in this catalogue are approximate and may vary from sample to sample.

GENERAL INFORMATION

Our website, at www.basrid.co.uk, is continuously being improved and now includes a page of downloadable certificates for all currently available BAS products.

QUALITY ASSURANCE

Bureau of Analysed Samples Ltd, is very pleased to advise customers that in November 1994 its Quality System was formally approved and recognised by the award of a Certificate of Registration to the Quality Standard BS EN ISO 9002:1994 for the production and supply of CRMs, RMs and SUS. This certificate has now been revalidated to the new standard BS EN ISO 9001:2015. Furthermore, BAS was accredited, in June 2006, to the International Guide, ISO Guide 34 (General Requirements for the Competence of Reference Material Producers) and the accreditation has since been updated to the Standard ISO 17034.

Please note that, whilst BAS is accredited to ISO 17034, only two of the Producers detailed in this catalogue (Brammer Standard Company, Inc. and Bundesanstalt für Materialforschung und -prüfung) are so accredited. The CRM/RMs prepared by the other producers in this catalogue will not have been produced under ISO 17034 accreditation.

Australian Coal Industry Reference Samples (ACIRS), Australia

CHEMICAL COMPOSITION (nominal mass content in %) - Figures in brackets are for information only

Coal Reference Materials (Finely divided material – unit weights as shown in table)

ACIRS No.	Description	Unit Weight	Ash	Volatile Matter	Total C	H	N	P	C as CO	Cl	F	Hg	Cd	As	Se	Total S	Hardgrove Grindability Index	Gross Calorific Value MJ/kg	Relative Density
S2A-2020	Coal	*125g*	…	…	…	…	…	…	…	…	…	…	…	…	…	*0.43*	…	…	…
S2B-2015	Coal	*125g*	…	…	…	…	…	…	…	*0.027*	*0.0037*	*0.0000057*	…	…	…	*0.69*	…	…	…

H9-2022	Coal	*4 x 1kg*	…	…	…	…	…	…	…	…	…	…	…	…	…	…	*30, 45, 62 & 87*	…	…

Coal Fly Ash Reference Material (Units of 75g)

ACIRS No.	Description	SiO_2	Al_2O_3	Fe_2O_3	CaO	MgO	Na_2O	K_2O	P_2O_5	TiO_2	Mn_3O_4	BaO	SrO	SO_3	ZnO
A2-2024	Coal Fly Ash	*58.0*	*26.0*	*8.8*	*2.61*	*1.03*	*0.36*	*0.90*	*0.55*	*1.42*	*0.12*	*0.05*	*0.04*	*0.13*	*0.01*

Values are also given for Ash Fusibility Reducing Temperatures:- Deformation *1310* °C; Sperical *1370* °C; Hemispherical *1400* °C; Flow *1480* °C
Ash Fusibility Oxidising Temperatures:- Deformation *1430* °C; Sperical *1460* °C; Hemispherical *1480* °C; Flow *1520* °C

ALPHA RESOURCES Inc. (AR), USA

CHEMICAL COMPOSITION (nominal mass content in %)

Oxygen & Nitrogen in Steel Reference Materials (units as shown)

AR No.	Units	Oxygen	Nitrogen
645	100 x 1g pins	*0.0034*	*0.0069*
646	"	*0.0028*	*0.076*
658	"	*0.0013*	*0.0771*
661	"	*0.0008*	*0.0091*
1651	"	*0.0036*	*0.0228*
1652	"	*0.0031*	*0.0537*
1658	"	*0.0009*	*0.0756*

Hydrogen in Steel Reference Materials (units as shown)

AR No.	Units	Hydrogen
555	100 x 1g pins	*0.00025*

Hydrogen, Oxygen & Nitrogen in Titanium Reference Materials (units as shown)

AR No.	Units	Hydrogen	Oxygen	Nitrogen
648	100 x 0.1g pins	*0.0169*	*0.119*	*0.0058*

Alpha Resources also produce Reference Materials for:
Carbon, Sulphur & Nitrogen in Steel
Hydrogen, Nitrogen & Oxygen in Zirconium
Hydrogen & Carbon in Titanium
Hydrogen & Carbon in Zirconium
Oxygen & Sulphur in Copper
Oxygen & Nitrogen in Iron Powder

The above figures are target levels and may vary between batches.
The above only constitutes a selection of Alpha Resource samples. Additional samples are available and information on these will be provided on request.

ARCELORMITTAL MAIZIÈRES RESEARCH SA (formerly IRSID), France

BNF - FULMER (BNF), UK

CHEMICAL COMPOSITION (nominal mass content in %)

Following the closure of the BNF-Fulmer organization in October 1992, BAS purchased their entire stock of non-ferrous spectroscopic reference materials and will continue to supply these until exhausted. Replacement samples are being produced by BAS in order to maintain continuity of these samples (see BAS Catalogue for details of such samples which are designated as CURMs).

The above represents a selection of samples prepared by Dillinger Laboratory in which the reference values have been obtained after a preliminary multi-element analysis by a complete reconstitution of the test sample using pure and ultrapure compounds as primary references. Sets of Dillinger samples are available to provide ranges of values for most categories of materials stated, and details can be provided on request.

The Dillinger certified values are based on the SI unit's kg and mole and are obtained by means of absolute calibration.

Please note that LUCIDEON (formerly CERAM Research) also provides a series of RMs for physical properties of ceramic materials. These include two thermal expansion RMs, one of alumina and the other of cordierite. Further details of how these RMs are supplied, as special cut bars or pieces, will gladly be provided on request.

LUCIDEON (formerly CERAM Research) also supplies a Dental Frit Particle Size Distribution CRM, with D50% 3.2 µm, Median diameter 3.2 µm, with 90% between 0.6 and 10.0 µm. This is available in units of 75g.

Please ask us for further details of these Alumina and Cordierite Thermal Expansion CRMs and Dental Frit Particle Size Distribution CRM.

PURCHASE PROCEDURE

ORDERING PROCEDURE

Please give the quantity, unit size or weight, reference number, description and producer of the samples required, and ensure we have your full delivery and invoice address.

PRICES

For prices see separate price list. Prices are stated in £ Sterling (GBP) and are subject to revision without notice. They exclude packing, despatch and VAT where applicable.

TERMS

The following terms apply:-

(i) **United Kingdom.** Net monthly account (subject to approved bank and trade references.) Insurance and freight are charged extra, and Value Added Tax at the standard rate is charged on the net invoice value.

(ii) **Overseas.** Packing, documentation, insurance and carriage are charged extra at cost. We shall be pleased to forward a quotation detailing these costs upon request. Prepayment is required on all orders.

PAYMENT

To enable us to meet customer requirements with the minimum of delay, new and occasional customers are asked to make payment in advance using one of the following options:-

By BACS or inter-bank transfer to Barclays Bank PLC, Middlesbrough, Sort Code 20-56-74, SWIFT No BUKBGB22

In **Sterling** to Account No 90217506, IBAN No GB16 BUKB 2056 7490 2175 06

In **Euros** to Account No 85465422, IBAN No GB19 BUKB 2056 7485 4654 22

We accept Barclays charges in the UK but not your own bank's charges.

By credit/debit card.

Customers who indicate that they wish to purchase by this method will receive a secure link for Worldpay by email. The link will only be sent at our request and is not available from our web site. For additional security we do not require you to send us any card details to our address.

Please send all orders, enquiries and correspondence to:
